# Summer at the Sangha 2026

**Mondays - Wednesdays - Fridays from 11am to 3pm**

**Weeks of July 6th, 13th, 20th & 27th**

During this 4-week general public program, teens and young adults with a range of abilities (in middle, high school, college and the workplace) are introduced to a sampling of hands-on, heart-centered inclusive community classes with nature & wellness themes including history, culture, science, and creative arts. There is a morning and an afternoon class each day. Games and team-building take place during lunch in between sessions. Guided by our skilled teachers, farmers, peer-mentors and community partners, participants come together for outdoor educational experiences, enjoy camaraderie, and minimize anxiety. Wonderful opportunities to learn what diversity in nature has to teach through the exploration and discovery of plants, animals, land and water in our Long Island "learnscape", connecting us as kin. Something for everyone! BYO lunch (water & snack available). AC indoors.

*See details on next page!*
